Give children back their childhood

Sex education programmes in primary schools are causing widespread concern among parents. In many primary schools children are exposed to indecent, sexually explicit DVDs. Children are forced to grow up too fast.

Now some MPs want to:

- Force all state-funded schools to teach sex education
- Stop parents having any say over whether their children are given sex lessons

Please help us to resist these changes and protect children.

We the undersigned call upon the secretary of state for education to protect children from explicit sex lessons in primary schools.

(Signatories must be over the age of 18.)
